Skills

HTML, CSS, JS, AngularJS, NodeJS, SQL, PostgreSQL, ReactJS, jQuery

Projects

mapit

FULL-STACK-DEV

<https://github.com/droneApp/mapit>

ReactJS, NodeJS, HTML, CSS, JS

- Worked in a group of 4 to create an app that allows a user to fly a drone in 3 weeks.
 - Created the functionality that allows for the controller to fly the drone using NodeJS through an NPM dependency.
 - Access the drone in ReactJS using Axios and bound the functions to keystrokes to fly it.
 - Used CSS to help style and create hover effects on the site.
-

SMD

FULL-STACK-DEV

<http://lit-headland-42174.herokuapp.com>

AngularJS, NodeJS, JS, HTML, CSS, SQL

- Medical data storage website created in 2 weeks.
 - Utilized UI-Grid to create an interface for typical patient and visit information that can be exported to a PDF or CSV file.
 - Data is stored on a SQL server and can be added, edited, and deleted.
 - Implemented a weather API and custom auth0 login.
-

SLC Parks

FRONT-END-DEV

<http://common-feast.surge.sh>

AngularJS, HTML, CSS, JS

- Created an app that pulls in an API of all the SLC public parks through AngularJS.
 - The user can click on a park and the location is plotted onto Mapbox using latitude and longitude.
-

Experience

American Crafts

FEBRUARY 2016 TO DECEMBER 2016

Demand Planner

- Create and manage demand forecast for national clients
 - Run and present reports to each account team
 - Work closely with teams to identify shortages, overstocks, and other inventory issues
 - Create ad hoc reporting by creating queries with advanced excel formulas
-

American Preparatory Academy

MARCH 2015 TO FEBRUARY 2016

Compliance Officer/Statistician

- Develop systems to compare and analyze data used by management in grant writing, reporting, and purchase/policy decision-making
 - Create Excel charts and graphs for reports on school funding and expenses
 - Help to establish internal procedures, creating an efficient standard of operation
-
