Skills HTML, CSS, JS, TS, Python, SQL, Angular 7, NodeJS, PostgreSQL, ReactJS, Bootstrap

Experience **Crossroads Technologies** MARCH 2018 - PRESENT
Application Developer

- Create and design front end interfaces for HR/ATS software
- Project Lead of ATS utilizing Atlassian suite to plan and manage tasks for sprints
- Send and receive JSON data using REST API
- Create responsive web design utilizing Angular Material (previously worked with Clarity, ngPrime, ng-select, Bootstrap)

Projects **Angular-weather-app** FRONT-END-DEV
<https://github.com/sargent88/weather-app> Angular 7, HTML, SCSS, Material

- Weather app created over a week using Angular and Material
- Use AccuWeather API to search over zip code and provide current weather conditions and 5 day forecast for multiple locations
- Fully responsive on all screen sizes

Angular-fitness-tracker FRONT-END-DEV
<https://github.com/sargent88/Angular-Fitness-Tracker> Angular 5, HTML, CSS, Material

- Worked through a course to learn Angular and Material over 2 weeks
- Connected the app to Firebase to save tracked information
- Fully responsive on all screen sizes

mapit FULL-STACK-DEV
<https://github.com/droneApp/mapit> ReactJS, NodeJS, HTML, CSS, JS

- Worked in a group of 4 to create an app that allows a user to fly a drone in 3 weeks.
- Created the functionality that allows for the controller to fly the drone using NodeJS through an NPM dependency.
- Access the drone in ReactJS using Axios and bound the functions to keystrokes to fly it.

SMD FULL-STACK-DEV
<http://lit-headland-42174.herokuapp.com> AngularJS, NodeJS, JS, HTML, CSS, SQL

- Medical data storage website created in 2 weeks.
- Utilized UI-Grid to create an interface for typical patient and visit information that can be exported to a PDF or CSV file.
- Data is stored on a SQL server and can be added, edited, and deleted.

SLC Parks FRONT-END-DEV
<http://common-feast.surge.sh> AngularJS, HTML, CSS, JS

- Created an app that pulls in an API of all the SLC public parks through AngularJS.
- The user can click on a park and the location is plotted onto Mapbox using latitude and longitude.

Education **DevMountain** devmountain.com
Brigham Young University B.S. Economics
